

## **Deposits account in 5 minutes – with the BANCOS Deposits Suite**

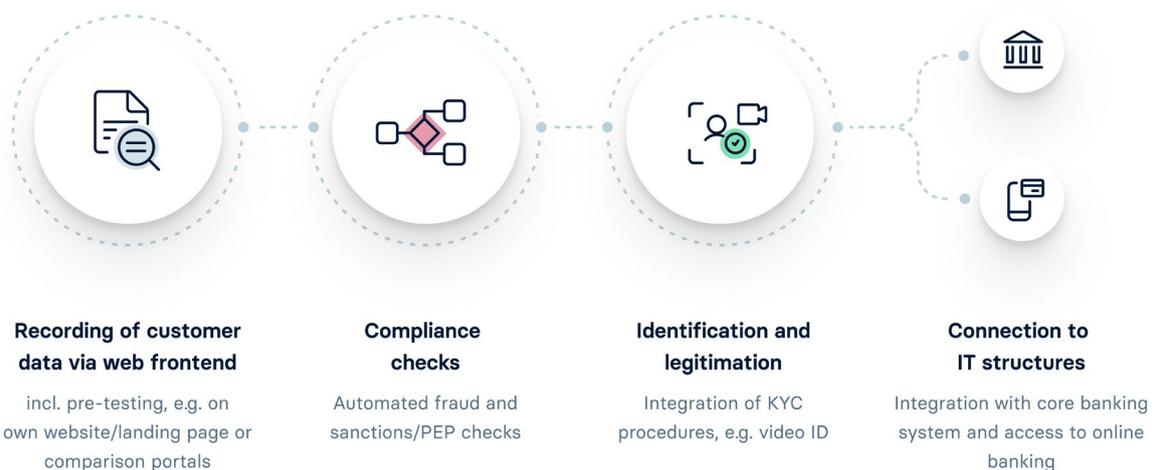

With the **BANCOS Deposits Suite**, you can enable your customers to open a savings or deposits account within just 5 minutes - including access to on-line banking as well as enabling payment transactions via IBAN.

### Your benefits with the BANCOS Deposits Suite:

- ✓ Massive increase in scalability in product sales
- ✓ Strengthening competitiveness in the contested deposits business
- ✓ Account can be managed immediately via online banking and is enabled for payment transactions
- ✓ Seamless connection to existing IT architecture possible

## Highest automation of end-to-end processes

With the BANCOS Deposits Suite we enable you to achieve a consistently high degree of automation of your processes. Because for many existing application journeys, this has not yet been optimally exploited. Even a single manual break can quickly increase costs in the mass business for savings and deposits. That is why our solution is consistently designed end-to-end.

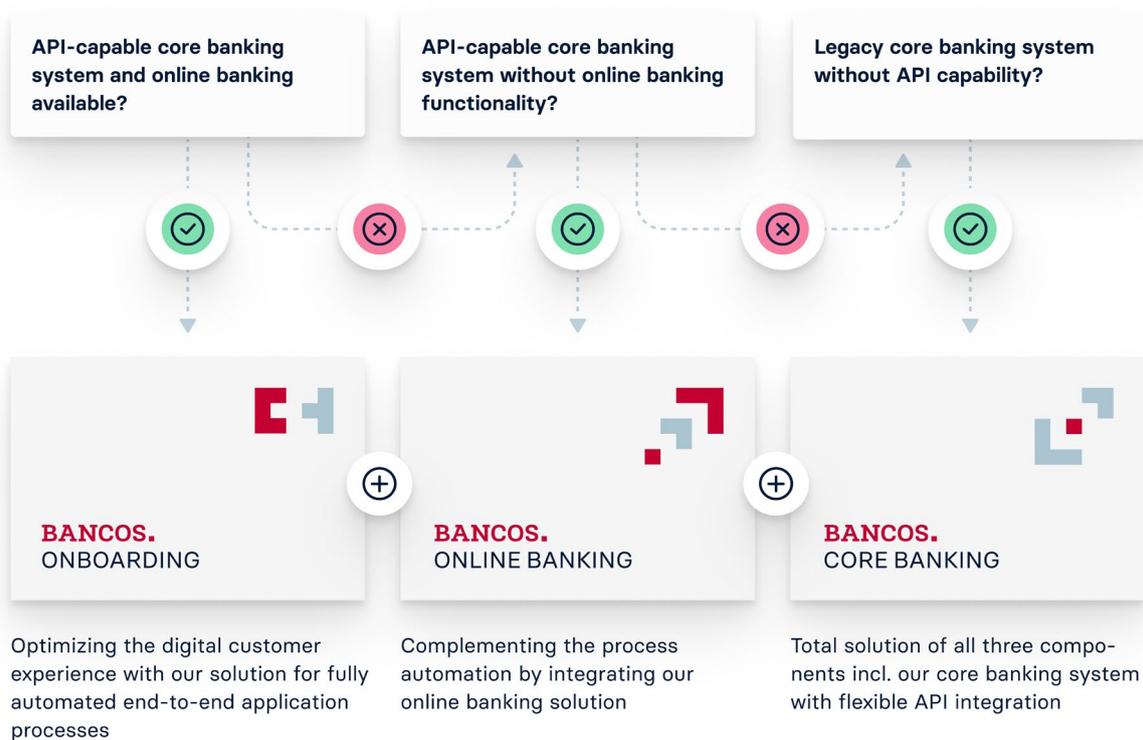

These steps of the application process are covered by the BANCOS Deposits Suite.

# This is how flexible the BANCOS Deposits Suite is

The individual components behind the BANCOS Deposits Suite are modular and can be integrated into the existing IT architecture according to your individual needs. Depending on the level of technological maturity, different combinations of our individual solutions BANCOS Onboarding, Online Banking and Core Banking complement the existing setup.

## Status of the existing IT architecture
